

The Material

BEHIND THE BUILDING

Premium pre-coated aluminium

Designed for architecture

Delivered through expertise

55+ YEARS

OF EUROPEAN MANUFACTURING
EXCELLENCE - ON YOUR SIDE

SUPPLIED IN THE UK EXCLUSIVELY THROUGH

PCS Ltd
Aluminium & Composites

WHO IS EURAMAX?

euramax
THE CLADDING MATERIAL COMPANY

Built for the Building Envelope

Euramax is one of Europe's most respected names in pre-coated aluminium — a company with more than 55 years of manufacturing heritage and an uncompromising commitment to quality, finish, and performance. Headquartered in Roermond, the Netherlands, Euramax supplies coated aluminium to architects, fabricators, and panel manufacturers in over 60 countries across the globe.

Known as "The Cladding Material Company", Euramax has played a defining role in some of the world's most ambitious building envelopes. From award-winning cultural institutions to large-scale commercial developments, their material sits behind facades that are built to last — and to be noticed.

Built on Half a Century of Precision

From their state-of-the-art facility in Roermond, Euramax has spent over five decades refining the art and science of coil-coated aluminium. Their plant runs multiple coating lines — including Europe's only line capable of processing wide coils up to 2,630mm. Each year, Euramax coats enough aluminium to cover over 2,000 football pitches.

EURAMAX AT A GLANCE

55+ years of coil coating expertise

60+ countries supplied worldwide

2,000+ football pitches of aluminium coated every year

2,630mm max coil width
— Europe's only line of its kind

The Green Metal Philosophy

Aluminium is the Green Metal. Recycling it requires only 5% of the energy used to produce primary aluminium — a significant CO₂ saving. Euramax publishes an official Environmental Product Declaration (EPD), giving specifiers independently verified data to meet BREEAM, whole-life carbon, and embodied carbon targets.

ARCHITECTURAL FINISH PLATFORMS

Create Without Compromise

Any metal. Any system. Six platforms to express every architectural vision.

EuraBuild

THE ESSENTIAL COLOUR PLATFORM

A specification-grade palette from cost-effective polyester to high-performance PVDF multilayer finishes — with warranties of up to 30 years. Where consistent colour, broad choice, and proven durability are the baseline.

EuraTex

EARTH-INSPIRED TEXTURES

Matte and textured finishes bringing material richness to the facade. Drawing on natural references — stone, soil, weathered metal — EuraTex adds depth and tactility where subtlety is the design intent.

EuraPattern

GRAPHIC IDENTITY

Distinctive painted patterns that impose rhythm, recognition, and character on the building face. Transforms the facade into a design statement through geometry, repetition, and visual presence at scale.

EuraMica

PRISMATIC IMPACT

Luxurious prismatic colours with luminous, shifting depth — finishes that change character with the light. Specified where the facade is required to command attention and demand visual presence.

AluNatur

NATURAL METAL EXPRESSION

Transparent clearcoats that preserve and elevate the intrinsic character of the aluminium surface itself. The metal's natural grain and warmth left visible, with long-term exterior protection built in.

AnoMax

ANODIZED AESTHETICS

Premium anodized design effects with greater creative flexibility — without the limitations of traditional anodising. Opens up metallic depth and surface sophistication across a wider range of colours and geometries.

All finishes available in 0.3mm to 2mm thick aluminium, with 20 years' warranty in coastal areas and 40 years inland.

The Finish Starts Here

ALL SIX FINISH PLATFORMS ARE AVAILABLE IN THE UK THROUGH PCS LTD.

YOUR UK PARTNER FOR EURAMAX

Specified with confidence Delivered with expertise

PCS Ltd. is the dedicated UK supply and specification partner for Euramax — combining European manufacturing excellence with 15+ years of UK industry expertise.

1

SPECIFICATION SUPPORT

Technical guidance from material selection to project sign-off. We work with architects to ensure Euramax products are correctly specified and documented.

2

SUPPLY & LOGISTICS

Direct UK supply from Euramax European production. Efficient, tracked delivery with full documentation, certification, and compliance support.

3

PROJECT PARTNERSHIP

Ongoing support from first enquiry through to final delivery. One expert point of contact — from first call to final sheet.

Ready to Specify Euramax?

Whether at concept stage, pricing a tender, or sourcing for immediate supply — we're here.
