Authentic textures

Accelerating performance
in metal envelopes

EURAMAX

Rough skins

Matte beauty

EuraTex

Our range of coatings that have a structured surface finish.

Paint surfaces vary from subtle to rough textures. Aesthetically, the textures are comparable to powder coating and materials like terra cotta and cement.

HDP 2L

Textured finishes are exclusively available in HDP 2L coatings in ultra matte aesthetics , <10 gloss units. When observed in direct sunlight they can still show vivid reflections.

Rough (0.3 – 2.0 mm gauge)

The rough structure offers the most profoundly visible texture.

Think also of the possibility to combine smooth surfaces with EuraTex HDP 2L in the same color tone in one building.

Fine (0.3 – 2.0 mm gauge)

Fine textures closely match powder coating surfaces. It is possible to combine pre-coated aluminium cladding panels and match powder coatings for window frames and other façade details.

Design (0.5 – 1.0 mm gauge)

Truly unique surface designs are possible when we add an additional manufacturing step on our state of art screen technology paint line.

Brunel office | Eindhoven (NL)

Specifications

- Aluminium thickness: 0.3 mm - 2.0 mm
- Standard coil width: up to 1.600 mm
- Multiple aluminium alloys available
- Warranty indications are maximum warranty periods
- Install EuraTex panels in the same direction to avoid color difference
- Order projects in one batch to avoid color difference
- Custom color development possible
- Minimum Order Quantity: 500 m¹
- Many other colors available on www.euramax.eu

**EuramaxLab**

The architectural specification team of Euramax is called EuramaxLab. We support architects in specifying coated surfaces and integrate our coating experience with the knowledge of our partners fabricating cladding panels. EuramaxLab strives to provide architects with a world of choice in metal envelope design.

EuramaxLab support services

- Custom coating development
- Custom color development
- Precision color matching
- Specification support
- Metal sampling
- Mock up service
- Network of panel manufacturers

● Pre-coated façade panels

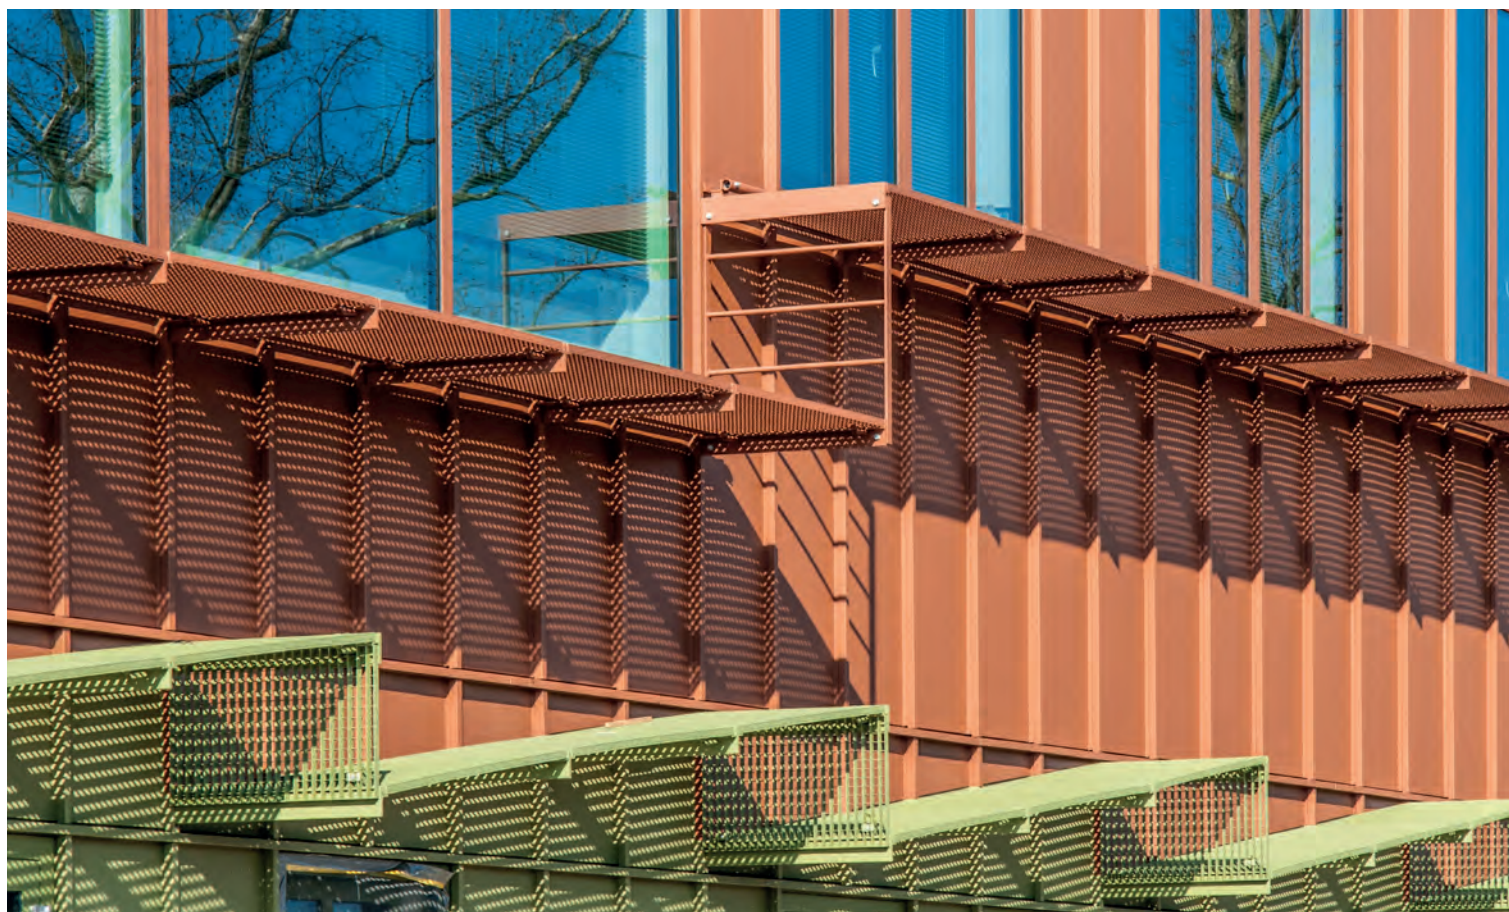

○ Powder coated surfaces
in matching colors

It is possible to combine pre-coated aluminum metal cladding panels and match a powder coating that can be used for window frames and other façade details. We work with partners that can develop matching powder coatings to assure aesthetic color equality.
