Timeless metals

Accelerating performance
in metal envelopes

EURAMAX

Timeless metals

MetalMax

Our color range inspired by classic metal aesthetics. The surfaces closely resemble the originals while offering the essential benefits of aluminium; light, strong, durable, easy to handle and requiring minimum maintenance.

PVDF 3L

Our MetalMax range is a high quality specialty range. All finishes are build up of at least 3 layer PVDF topcoats offering high UV protection, long warranty periods and potential use across the globe.

PVDF 3L FEVE

PVDF 3L paints have a standard gloss of 30 gloss units. High gloss levels up to 90 g.u. or as low as 10 g.u. are possible by choosing a FEVE top layer. This FEVE top layer also offers anti-graffiti and self cleaning properties.

Specifications

- Aluminium thickness: 0.3 mm - 2.0 mm
- Standard coil width: up to 1.600 mm
- Maximum coil width: up to 2.600 mm
- Multiple aluminium alloys available
- Warranty indications are maximum warranty periods
- Install MetalMax panels in the same direction to avoid color difference
- Order projects in one batch to avoid color difference
- Custom color and gloss (10 – 90 gloss units) development possible
- Protec maximum corrosion resistance coating build-up possible
- Minimum Order Quantity: 500 m²
- Many other colors available on www.euramax.eu

EuramaxLab

The architectural specification team of Euramax is called EuramaxLab. We support architects in specifying coated surfaces and integrate our coating experience with the knowledge of our partners fabricating cladding panels. EuramaxLab strives to provide architects with a world of choice in metal envelope design.

EuramaxLab support services

- Custom coating development
- Custom color development
- Precision color matching
- Specification support
- Metal sampling
- Mock up service
- Network of panel manufacturers
